OPM regulations under 5 CFR 837.103 require employing agencies to collect certain information from reemployed annuitants on or before the date the employing agency appoints a reemployed annuitant to a Government position. Agencies need to collect timely information regarding the type and amount of annuity being received so the correct rate of pay can be determined. Agencies provide this information to OPM so a determination can be made whether the reemployed annuitant's retirement annuity must be terminated or suspended upon reemployment.
